### A differentiated finish for premium metal assortments

- **Distinctive aesthetic**

Naturally aged bronze character creates a premium architectural look.

- **Modern protection**

PermaGuard Kynar 500 paint system supports fade resistance and color retention.

- **Versatile appeal**

Designed for homes, buildings, and commercial projects seeking a bold finish.

# PRODUCT STORY & SPECIFICATIONS

Premium visual differentiation backed by a durable, layered coating system.

## WHY PATINA BRONZE STANDS OUT

### Authentic aged-metal look

A printed finish and texture deliver the character of naturally weathered metal.

### Premium steel specification

26 gauge AZ50 steel is built for strength and long-term performance.

### Color retention story

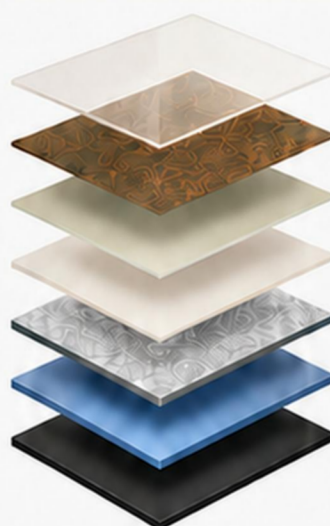

PermaGuard Kynar 500 provides strong resistance to chalking and fading.

### Surface protection

A durable clear coat helps protect against scuffs and scratches.
